You can forget to include anytime if it involves a bunch of large files... :-)

Karen,

Here's the table I believe you want on MS Word

[attachment "Summary of Residents without water updated 1-13-12.docx" deleted by Richard Fetzer/R3/USEPA/US]

Just so all are on the same page....

Here's an example of the spreadsheet we generate for inport into the " EPA database" from the Cabot 104 submissions and PADEP data and eventually will hold the EPA sample data.

[attachment  HW-14\_01\_23\_ALL.xlsx" deleted by Richard Fetzer/R3/USEPA/US]

Dawn - From here forward, I'd like you to footnote (in your opinion) the numbers she picks to reference from these spreadsheets. (Dawn, if you could go back and do that for  (HW1),  (HW2),  (HW3),  (HW5) and  (HW14), Thanks.

I know that Ann and Lora did a similar exercise when Bob was out of pocket coming back from the RRT....I even thought I saw Lora's email, but I just searched for a while and can't find that email/document, either under Lora or Ann. Not sure we need to find that, but it might help Karen, of ORC still wants her to do what they ask.

The 9am OSC Dimock call will cover discussion of Dawn's opinion of HW1, HW2, HW3, & HW 5. We can also discuss this issue further if necessary.

ok. this closely resembles something that we are going to do also. I think we will still implement what we are doing...but we can discuss next week.

---

Dawn based her memo on numbers in the ATSDR summary charts and ORC had asked me to verify where each of those had come from and the dates of the samples in filling in what we will need for the record...there was a table sent to Shawn on a Friday evening maybe from you or Ann? I'm just going to fill in the source and date. Cabot has implied we took values from a letter from their counsel that had units wrong

Karen, I am not sure who is asking for this. In my opinion, the results that we need to make sure we know specifically where they came from, are the ones that Dawn references in her tox opinion to recommend some action.

So...when I get a chance, I was going to ask Dawn to footnote her tox opinion (in her memo to me). Maybe I am missing something...if so, explain more.

The  well is on our list, but not high priority because nobody has been drinking it. We probably work this into the end of the sampling event.

I've been asked to add column(s) identifying where the same result came from (source) and the date for each. There are also a few corrections to the table regarding (J ) v. non J values for the metals that were noted.

Thanks. If you can forward I'll get it updated this weekend.

Also did you ever get an agreement to sample the  well next to  there is just a well

and "Shed" no residence, but the well had a bunch of stuff in it and initial response from Cabot is the well is outside the area at their primary residence in Brooklyn, PA, but can't figure why they would have sampled outside the area of interest...just don't want to miss that well. Thanks!
